

A 3D rendering of a white, rectangular, flat object, possibly a lid or a piece of plastic, shown from a perspective view. The object is oriented diagonally, with its top-left corner closer to the viewer. It has a smooth, slightly reflective surface and a thin, uniform thickness. The lighting is soft and even, highlighting the object's clean lines and minimalist design. The background is a plain, light gray, providing a neutral backdrop for the white object.

Technical drawing of a rectangular object, likely a component of a device. The drawing includes the following elements:

- Dimensions:**
  - A:** Horizontal length dimension.
  - B:** Vertical height dimension.
  - C:** Vertical height dimension, likely for a side flange.
  - D:** Vertical height dimension, likely for a base flange.
  - E:** Small horizontal dimension at the bottom left corner.
  - F:** Small horizontal dimension at the bottom center.
  - G:** Small horizontal dimension on the left side.
- Labels:**
  - (Выводная часть):** Located below the main rectangle, indicating the output part.
  - (Носовая часть):** Located below the detailed view of the front face, indicating the nose part.
- Views:**
  - Main View:** A top-down view of the rectangular object.
  - Front View (Detailed):** A circular view showing a grid pattern, likely representing a sensor array or a display.
  - Side View:** A view showing the profile of the object, including the flanges.
  - Bottom View:** A view showing the base of the object, including the flange and the output part.
